Each bar shows a component as a percentage of the estimated total — useful for spotting where the budget concentrates.

Qualifying investment / contribution **91/100**

Government & application fees **3/100**

USD 7,500 · 3% of total

Due diligence & background checks (1 applicant) **1/100**

USD 2,000 · 1% of total

XIPHIAS professional service fee **5/100**

READING THE MIX

On investment-led routes the qualifying investment usually dominates the total. Government fees, due diligence and the service fee are smaller but mandatory — and due diligence scales with every applicant you add.

PAYMENT & TIMELINE

How and when costs fall due

Costs rarely land all at once. This is the typical sequencing so you can stage funds rather than holding the full total upfront.

1

Engagement & due diligence

Professional service fee and due-diligence costs (USD 17,000) are typically the first outlay, before any government commitment.

2

Application & government fees

Government and application fees (USD 7,500) fall due as your file is prepared and lodged with the authority.

3

Qualifying investment / contribution

The qualifying investment or contribution (USD 250,000) is committed only after approval-in-principle on most routes — never at the start.

4

Issuance & dependants

Final issuance fees are settled as your residence card or passport is issued.

Cost risk & due diligence

CURRENCY & FX**Hold a buffer**

Government fees are often set in local currency; FX swings can move your INR/USD total.

SCHEDULES CHANGE**Verify before paying**

Government fee schedules and quotas change; confirm current figures before any payment.

SOURCE OF FUNDS**Evidence early**

Investment and many residency routes require a clean, documented funds trail before approval.

HIDDEN COSTS**Plan extras**

Translation, apostille, medicals, travel and property valuation sit outside this core estimate.
